HOW WE WORK

Vision X Analysis is an independent football scouting and video analysis project. We do not represent clubs, agencies or players. Our work is driven entirely by an interest in understanding football — how players move, decide, adapt and contribute within structured systems.

YOUR PERFORMANCE SEEN WORLDWIDE

We convert match performance into clear insights that help players gain visibility and connect with opportunities in modern football.

PLAYERS DISCOVERED THROUGH VIDEO SCOUTING

Before joining Southampton F.C. and later Liverpool F.C., Van Dijk played for Celtic F.C. in the Scottish Premiership. Extensive video analysis revealed his aerial dominance, positioning, and ball progression as a center-back.

Before being signed by Leicester City, Kanté played for SM Caen in Ligue 2 and later Ligue 1. Clubs noticed his exceptional ball recoveries and defensive work rate through performance data and match analysis.

Mané was playing for FC Metz in Ligue 2 before being recruited by Red Bull Salzburg. Video scouting highlighted his pace, attacking movement, and ability to run in behind the defense.

Before signing for Leicester City, Vardy played for Fleetwood Town F.C. in the English National League (5th tier). Clubs analyzed recorded matches to assess his pressing intensity, speed, and goal-scoring ability.

SOME OF OUR STARS

Vision X Analysis has had the opportunity to produce detailed performance reports on players such as Mario Balotelli. Through advanced video analysis and tactical evaluation, our reports provide professional insights into player performance, strengths, and areas for development, the same analytical approach used in modern football scouting.

SOME OF OUR STARS

Through advanced video analysis, Vision X Analysis has developed professional performance reports on players such as Philippe Coutinho, evaluating technical actions, tactical impact, and overall performance.
